This high pressure 240V Electric grease piston pump is powered by an electric motor via a worm gear and is suitable for applications where compressed air is not available. The pump operates automatically by means of a pressure switch in the outlet, switching on or off the power according to the pressure limits set. (Please note that this function is only available if you have the control unit.)

When ordering, please advise the correct part numbers of the selected pump, control unit, and electric motor.

Technical data

Output:	150 g/min at 1,400 rpm
Grease pressure:	35 MPa/5,100 psi
Outlet connection:	ISO-G1/4 male
Pump tube diameter:	35 mm
Electric motor:	3-phase 230/400 V 50 Hz 0.37 kW 1,400 rpm IP 55
Optional on request: DC-motor	1-phase 230 V 50 Hz IP55

Ordering Details

16-20kg pails

Part No	102104
Tube Length	400mm
Weight excluding Motor	17kg

55kg pails

Part No	102105
Tube Length	700mm
Weight excluding Motor	19.5kg

180kg pails

Part No	102106
Tube Length	890mm
Weight excluding Motor	21kg

Control Unit and motor

0102016	3 phase control unit 1.0kg
0102059	1 phase control unit 1.0kg
901079	3 phase motor 4.5kg
901090	1 phase motor 4.5kg
