

hose reels - metal

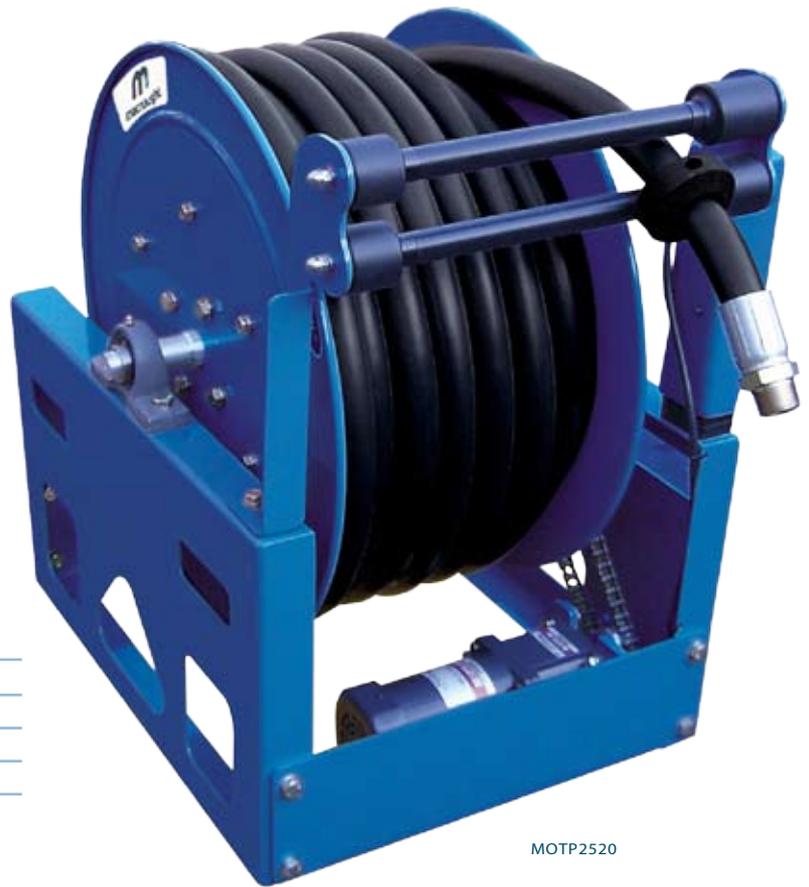

powered heavy duty metal hose reels

Provided with twin pedestal supports for added strength and stability, these powered heavy duty metal reels are able to be supplied with pneumatic, hydraulic or 24 Volt electric power. These powered metal reels are assembled and tested in Australia, which means greater flexibility and faster satisfaction of specific needs.

The weedicide/pesticide powered reel features an ample 50 m length hose, providing more than enough reach to get where needed.

Features

- heavy duty steel chassis
- multi directional nylon roller guides reduce hosedrag and wear
- full flow heavy duty swivel for maximum product delivery
- powder coated finish for corrosion resistance
- 5 year warranty

MOTP2520
