CONSUMABLES - GREASE AND OIL SUMMARY SHEET

Effective 1 January 2009

Total Plant Control is able to fill MEMOLUB cartridges with most greases and oils with an NLGI up to 3, to meet customer specifications. The listing below displays the greases and oils most commonly used, but customers may request any other product not specified and Total Plant Control will attempt to source and fill.

Please note that grease cartridges are sold in boxes of 10 only, and include powerpacks. Single cartridges are only sold where new pumps are purchased and customers wish to set up trials of Memolub products.

Please note that new MEMOLUB pumps all use the red battery packs as standard. Unless requested otherwise, all MEMOLUB cartridge refills are supplied with red battery packs. However the older black battery packs are still available upon request.

SUMMARY OF GREASES AND OILS CURRENTLY SUPPLIED BY TPC TO FILL MEMOLUB CARTRIDGES:

CALTEX	DELO, EPC2, LIPLX EP2, MINEGREASE, MOLY EP2, RPM
