OIL SPILL CONTAINMENT CONTAINERS AND RACKING

EL SERIES - 2 Drum Spill Container **Part Number: SC60010**

- Designed for static spill containment for up to 2 x 205 litre drums
- Manufactured from high strength polyethylene that will not rust or corrode
- 400 litre capacity
- Compatible with most forklifts and pallet trucks
- Removable for ease of cleaning
- Helps create an OH&S compliant workplace environment
- Dimensions of: 1340 x 670 x 450mm

EL SERIES - 4 Drum Spill Container **Part Number: SC60020**

- Designed for static spill containment for up to 4 x 205 litre drums
 - Manufactured from high strength polyethylene that will not rust or corrode
 - 800 litre capacity
 - Compatible with most forklifts and pallet trucks
 - Removable for ease of cleaning
 - Helps create an OH&S compliant workplace environment
- Dimensions of: 1340 x 1340 x 450mm

2 Drum Spill Container
Part Number: SJ-100-002

The 100 Series 2 drum spill container provides a convenient and user friendly spill containment system suitable for 205 litre drums and smaller capacity fluid containers

- Hold up to 2 x 205 litre drums
- 100% recyclable polyethylene construction
- Non-skid removable deck
- Compatible with most forklifts and pallet trucks
- Sump capacity of 236 litres
- Dimensions of 750mm (L) x 1300mm (W) x 440mm (H)
- Weight of 20kg
- Helps to create an OH&S compliant workplace environment

4 Drum Spill Container
Part Number: SJ-100-006

The 100 Series 4 drum spill container provides a convenient and user friendly spill containment system suitable for 205 litre drums and smaller capacity fluid containers

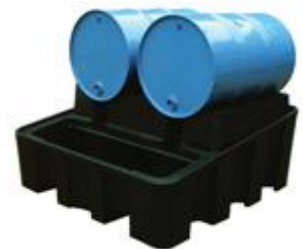

- Hold up to 4 x 205 litre drums
- 100% recyclable polyethylene construction
- Non-skid removable deck
- Compatible with most forklifts and pallet trucks
- Sump capacity of 242 litres
- Dimensions of 1290mm (L) x 1380mm (W) x 280mm (H)
- Weight of 30kg
- Helps to create an OH&S compliant workplace environment

2 Drum Rack & Spill Container
Part Number: SJ-200-003

The 200 Series 2 drum rack & spill container is ideal for convenient, safe and easy storage of and dispensing from 205 litre drums

- Securely stacks up to 2 x 205 litre drums
 - 100% recyclable polyethylene construction
 - Compatible with most forklifts and pallet trucks
 - Sump capacity of 450 litres
 - Dimensions of 1350mm (L) x 1375mm (W) x 635mm (H)
 - Weight of 43kg
- Helps to create an OH&S compliant workplace environment

4 Drum Rack & Spill Container
Part Number: SJ-200-010

The 200 Series 4 drum rack & spill container is ideal for convenient, safe and easy storage of and dispensing from 205 litre drums

- Securely stacks up to 4 x 205 litre drums
- 100% recyclable polyethylene construction
- Compatible with most forklifts and pallet trucks
- Sump capacity of 450 litres
- Dimensions of 940mm (L) x 1375mm (W) x 390mm (H)
- Weight of 15kg
- Helps to create an OH&S compliant workplace environment

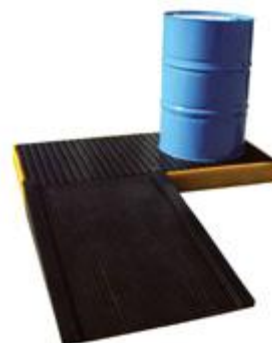

2 Drum Workfloor & Spill Container
Part Number: SJ-300-001

The 300 Series 2 drum modular workfloor & spill container has been designed and manufactured to facilitate static spill containment and to serve as a fluid dispensing area

- 100% recyclable polyethylene construction
- Slip resistant texture on workfloor deck and ramp
- Cannot rust or corrode
- Excellent chemical compatibility
- Sump capacity of 120 litres
- Dimensions of 800mm (L) x 1600mm (W) x 150mm (H)
- Weight of 24g
- Helps to create an OH&S compliant workplace environment

4 Drum Workfloor & Spill Container
Part Number: SJ-300-006

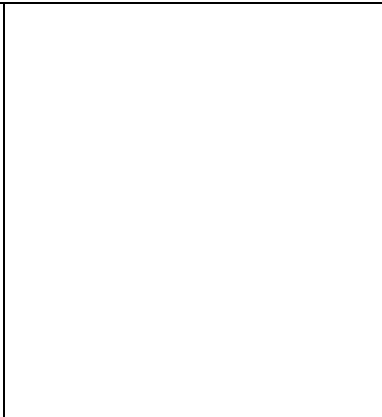

The 300 Series 4 drum modular workfloor & spill container has been designed and manufactured to facilitate static spill containment and to serve as a fluid dispensing area

- 100% recyclable polyethylene construction
- Slip resistant texture on workfloor deck and ramp
- Cannot rust or corrode
- Excellent chemical compatibility
- Sump capacity of 240 litres
- Dimensions of 1600mm (L) x 1600mm (W) x 150mm (H)
- Weight of 45g

<ul style="list-style-type: none"> Helps to create an OH&S compliant workplace environment <p>Image also shows SJ-300-010 Workfloor Ramp</p>

- Cannot rust or corrode
 - Excellent chemical compatibility
 - Compatible with most forklifts and pallet trucks
 - Can be used with or without a deck
 - Dimensions of 1450mm (L) x 1450mm (W) x 1000mm (H)
 - Weight of 105kg
- Helps to create an OH&S compliant workplace environment

IBC Spill Container - Double
Part Number: SJ-500-003

The 500 Series 2,000 litre IBC spill container is solid in construction, ergonomic indesign and provides the perfect solution for containing spills

- Solid construction and practical design
 - 100% recyclable polyethylene construction
 - Capacity of 1,100 litres
 - Easy to maintain and clean
 - Cannot rust or corrode
 - Excellent chemical compatibility
 - Compatible with most forklifts and pallet trucks
 - Dimensions of 2450mm (L) x 1450mm (W) x 575mm (H)
 - Weight of 120kg
- Helps to create an OH&S compliant workplace environment

Drum Spill Containers
Part Number: 44004/44002

- Zinc plated steel with removable galvanized grates for ease of cleaning
- Can be quickly and easily repositioned due to forklift lifting points
- Reduces the chance of worker accidents, insurance costs and possible disposal costs
- Can be used as the basis of your fluid storage, dispensing and metering centre
- Provides you with a simple and cost effective way of complying with Council and EPA Environmental requirements

Part Number	Product Description	Dimensions	Max Weight
44004	Four drum spill container	1320mm(l)x 320mm(w)x260mm(h)	1000kg

44002	Two drum spill container	1250mm(l)x820mm(w)x352mm(h)	500kg	
<p>4 x 205L Drum Storage and Spill Part Number: 76810</p> <ul style="list-style-type: none"> ▪ 100% corrosion resistant ▪ Universally applicable for use with oil, waste oil, chemicals & some acids ▪ Space saving, safe and convenient storage of up to 4 x 205L drums ▪ Dimensions of 1410mm (L) x 1280mm (W) x 1620mm (H) <p>220 litres spill containment sump capacity</p>				
<p>12 x 60L Drum Storage and Spill Containment Rack Part Number: 77440</p> <ul style="list-style-type: none"> ▪ Facilitating space-saving storage of up to 12 x 60 litre drums and other containers, the 77440 drum storage and spill containment rack is completely hot dip galvanised and has a 100% corrosion free GRP (glass fibre reinforced plastic) sump pallet for long-term safe use. ▪ 100% corrosion resistant ▪ Universally applicable eg. oil, waste oil, chemicals and acids ▪ Three storage levels and supports for 12 x 60L drums supplied as standard ▪ An additional steel grating storage level is available as an accessory ▪ Storage level heights in cm from the ground: 69/117/165 ▪ Overall dimensions in cm: 132 long x 80 wide x 200 high ▪ Weight: 82kg approx. ▪ Spill containment tray capacity of 150 litres <p>Can holder as illustrated available as an accessory</p>				
<p>2 x 205L Drum Storage and Spill Containment Rack Part Number: 76800</p> <ul style="list-style-type: none"> ▪ Facilitating space-saving storage of up to 2 x 205 litre drums and other containers, the 76800 drum storage and spill containment rack is completely hot dip galvanised and has a 100% corrosion free GRP (glass fibre reinforced plastic) sump pallet for long-term safe use. The low installation height is particularly suitable for workshop/production facility drum handling, storage and bunding. Delivered in individual parts the 76800 is easily and quickly assembled. ▪ 100% corrosion resistant ▪ Universally applicable eg. oil, waste oil, chemicals and acids ▪ Drum supports for 2 x 205L drums supplied as standard ▪ Stores drums at a height of 62cm from the ground 				

- Overall dimensions in cm: 141 long x 128 wide x 84 high
- Weight: 51kg approx.

Can holder as illustrated available as an accessory

6 x 60L Drum Storage and Spill Containment Rack
Part Number: 76520

- Facilitating space-saving storage of up to 6 x 60 litre drums and other containers, the 76520 drum storage and spill containment rack is completely hot dip galvanised and has a 100% corrosion free GRP (glass fibre reinforced plastic) sump pallet for long-term safe use.
- 100% corrosion resistant
- Universally applicable eg. oil, waste oil, chemicals and acids
- Two storage levels and supports for 6 x 60L drums supplied as standard
- An additional steel grating storage level is available as an accessory
- Storage level heights in cm from the ground: 69/117
- Overall dimensions in cm: 132 long x 80 wide x 130 high
- Weight: 60kg approx.

Can holder as illustrated available as an accessory
